

FLEET MANAGEMENT SYSTEM

Boost the performance for your fleet!

Comprehensive Fleet Management Solutions

Our system can be installed and used in vehicles such as;
Trucks, Buses, Industrial Equipment, Cars, Delivery Vehicles etc.

LMT has a web based, easy to use interface, full Fleet Management Platform with customised solutions.

LMT has integrated tracking, unique recovery and various other units to this platform. Tracking is real time, every few seconds and pin point accurate. LMT is backed up by Afrisist for national recoveries, investigations, armed escorts etc.

All alerts e.g. battery disconnect, towing alerts, panics etc are handled by Afrisist and armed response dispatched where necessary. In short LMT offers a professional and state-of-the-art end to end fleet management system as well as a bureau service. **The tracking solution is approved and accepted by most insurance companies like Regent, Mutual and Federal, Santam etc.**

The platform has a comprehensive visual dashboard that can be set up to be client specific. The client can also log in to a control room platform.

Unit Technical Features

Our fleet management systems are integrated with state of the art hardware.

- ✓ Wide operating voltage range 8V to 32V DC
- ✓ Low power consumption, long standby time with internal battery
