

LMT DASH CAMERA

Keep a watchful eye on your fleet and staff, both on and off road, with our mobile digital video solution.

LMT Dash Camera App Features

Our system can be installed and used in vehicles such as;
Trucks, Buses, Industrial Equipment, Cars, Delivery Vehicles etc.

Real Time Streaming

View real-time video footage on the dual-camera configuration, whilst viewing the vehicle's live location on an online map.

Trip Playback

View historical trip playback footage as needed for your fleet depending on the size of the SD card.

Video Dashboard

Archive videos, create events and automatically receive video records via email when an event is triggered.

GPS Tracking

Live real-time tracking. Set up geofences, routes and points of interest and receive notifications for when a vehicle enters or exits a pre-defined location.

Last Known Position

Once the vehicle is location, stream on multiple cameras at the same time or call into the cab to speak to the driver.

ADAS and DMS Integration:

Our latest models also include integrated ADAS (Advanced Driver Assistance Systems) and DMS (Driver Monitoring Systems) for real-time alerts and driver accountability.

LMT Dash Camera Dual-Facing Angle Configurations

The dual-facing dash camera has both an integrated road-facing and driver-facing camera view

Telematics hardware captures and transmits live video, tracking, and other data into the advanced dashboard on your device

LMT Dash Camera Hardware Features

- Camera Configuration**
 Weatherproof internal and external cameras to ensure quality recordings even in harsh conditions.
- Live Tracking Capabilities**
 Monitor your fleets' location, speed, geofences, and routing and receive reports and alerts.
- Panic Buttons**
 Ensure driver safety in emergency situations with a panic button.
- Cross-Device Monitoring**
 Easily access your historical videos and manage alerts across devices with our mobile friendly app.
- Driver Safety Alerts**
 Set crash alerts, anti-theft alarms, and vibration alerts on your vehicles and receive notifications.
- Monitor Driver Behaviour**
 Easily monitor driver behaviour and communicate with the driver through two-way communication.

Industries that can benefit from LMT Dash Camera system

Government,
Local Authorities,
Municipalities and
Public Transport

Transport and
Logistics

Mining and Yellow
Equipment

Airlines (Aviation)

Agriculture

Other Industries

Keep a watchful eye on your fleet with ease!
