ADAPTABLE MONITORING SOLUTIONS

Smart-View Personal 4G Tracker

A powerful, versatile and multifunctional mini portable personal tracker.

Easily Track and Monitor Your Loved Ones

The Smart-View Personal 4G Tracker is a portable tracker allowing for two-way communication. The device is IP54 rated and is easily charged via the magnet charger port. It also has extensive mode settings to cater for every application, ensuring maximum battery life.

In addition to GNSS location outdoors, it has built in WiFi and Bluetooth allowing for smart location indoors. The WiFi/BLE also enables smart modes so that the battery is not consumed by GPS and 4G when the device is in a smart zone. The button on the side can be used to mark of point of interest.

Personal 4G Tracker Benefits

Keep your loved ones safe with a mini portable tracking device

Family and Child Care Monitoring

This powerful, mini tracker is ideal for parents looking to keep a watchful eye on their toddlers, pre-teens, or teenagers at school or out with friends. This device can be easily stored in your child's backpack or jacket pocket, allowing you to easily keep track of your young ones throughout the day.

Elder Care and Mental-Impairment Monitoring

Our Personal 4G Tracker allows families and medical personnel to keep track of their senior patients / loved-ones that may require additional medical care with a click of a button. This robust mini tracker allows the carrier to set off a panic alarm, request medical assistance via the two-way comms, and provide real-time tracking.

Driver and Sales Reps Monitoring

Whether you have a small team or large fleet, our Personal 4G Tracker can help you keep an eye on your team. With a discrete design, powerful functions, and amazing features, you can communicate with your team, track their movements, and ensure their safety with an S.O.S panic button that dials your specified emergency response number.

Law Enforcement and Government Staff Monitoring

Personal safety should be your primary concern when coming to your law enforcement or security officers and governmental community workers. Easily monitor, track, and communicate with your team in real-time with our durable, versatile, and portable mini tracking device.

Tourist or Traveler Monitoring

Exploring the unknown has always been an exciting notion. However, with the rise in crime, it's important for tourists or travelers to be covered. This is where our Personal 4G Tracker will come in handy! Let your family stay up to date with your movements, alert them when you need help, and easily pin points of interest.
